

PROGRAMS FOR  
THE  
EDUCATIONAL  
FIELD

For more information on any of the programs or how to apply to a CALDO university please contact:  
[graduate.coordinator@caldo.ca](mailto:graduate.coordinator@caldo.ca)

CALDO is a leading academic gateway to Canada for Latin American students. Made up of nine of Canada's U15 research universities, we aim to position Canada as a destination of choice for graduate students across the Latin American region.

### Member Universities

The University of Alberta is one of Canada's top five research universities and ranks consistently among the top 100 in the world. Located in Edmonton, capital of the oil-rich province of Alberta, UAlberta is a world leader in energy research as well as in medicine, virology, nanotechnology and agriculture. Its Circumpolar Institute is a world-leading hub for Arctic and polar research.

Located in Calgary the nation's most enterprising city, the University of Calgary is Canada's top university less than 50 years old. A vibrant, urban university with a strong sense of community, its areas of research expertise include energy, neurology and mental health, smart and secure cities, earth-space technologies, biomedical engineering, and chronic diseases.

Dalhousie, located in the coastal city of Halifax, Nova Scotia, is a one of Canada's leading research universities. With groundbreaking work in fields such as oceanography, life sciences, sustainability, clean energy, agriculture, material sciences, and information and communications technology, Dalhousie drives economic growth and knowledge generation regionally, nationally, and internationally.

Located in Québec city, Université Laval (UL) is the first francophone university in the Americas and one of the top 10 research universities in Canada. UL is renowned for its academic excellence and its cutting edge research. 400 programs are offered in all areas of knowledge. The university can count on 250 research groups and chairs and more than 3,400 professors with international recognition. UL has advanced facilities providing students with 2,300 dorm rooms and one of the biggest sports complexes in Canada.

Situated in the heart of Canada's capital city, the University of Ottawa is the world's largest bilingual French-English university. Consistently ranked among the top ten Canadian research universities, uOttawa operates 40 research centres and is a leader in medical photonics and catalysis research. It is also famous for promoting campus environmental sustainability measures.

Queen's is one of Canada's oldest degree-granting institutions, influencing Canadian higher education since 1841, and is located in Kingston, Ontario, a historic city ranked as one of the best places to live in Canada. Queen's ranks first among Canadian universities in the number of awards per full-time faculty, and its graduate students across more than 50 departments excel under the mentorship of these leading researchers.

One of Canada's top research universities, the University of Saskatchewan located in Saskatoon hosts world-class centres, including the Canadian Light Source, and a wide range of colleges including engineering, medicine, and veterinary medicine. Signature areas are: Aboriginal scholarship/engagement, agriculture, energy/mineral resources, synchrotron sciences, water security, and "one health."

Located in Waterloo (Ontario), the University of Waterloo sits in the heart of Canada's Technology Triangle, home to major tech companies like BlackBerry and Sandvine. Best known as an IT and engineering research hub, Waterloo has 41 research centres and was ranked number 24 in the world for computer science and information systems research by the 2014 QS World University Rankings.

With annual research funding of \$240 million and a strong international reputation, Western University ranks as one of Canada's top research-intensive universities. Located in London, Ontario, and founded in 1878, Western offers over 400 undergraduate programs and 120 at the master's and PhD level.

## ***Programs for Education Professionals***

<i>University</i>	<i>Program</i>	
<i>University of Alberta</i>	Adult, Community and Higher Education	<a href="#"><u>Website</u></a>
	Art and Design	<a href="#"><u>Website</u></a>
	Biological Sciences	<a href="#"><u>Website</u></a>
	Chemistry	<a href="#"><u>Website</u></a>
	Educational Administration and Leadership	<a href="#"><u>Website</u></a>
	Elementary Education	<a href="#"><u>Website</u></a>
	Educational Psychology	<a href="#"><u>Website</u></a>
	History and Classics	<a href="#"><u>Website</u></a>
	Indigenous Peoples Education	<a href="#"><u>Website</u></a>
	Mathematical and Statistical Sciences	<a href="#"><u>Website</u></a>
	Modern Languages and Cultural Studies	<a href="#"><u>Website</u></a>
	Music	<a href="#"><u>Website</u></a>
