

Priority 1: Understanding Risk

Policies of recommendations

- Policy 1: Data sharing mechanisms between stakeholders (including private sector)
- Policy 2: Data provision in a form which matches research data needs and pipelines
- Policy 3: DRR scientific advisory network at all levels of decision making (descentralized approach)
- Policy 4: Innovation incentive policy for disaster resilience building
- Policy 5: Developing capacity of scientist to “Translate” their research into common and good means of communication (both ways)
- Policy 6: Overall policy about providing access to DRR relevant data as principle that overrides the brief and jurisdiction of individual agencies and departments

	Policy 1 Data sharing	Policy 2 Provision mtch needs	Policy 3 Sci adv network	Policy 4 Innov incentive	Policy 5 Dev translate	Policy 6 Policy on DRR data
