

PROYECTOS ADJUDICADOS FONDO ASTRONOMÍA ALMA-CONICYT 2019

Nº	Código	Título	Investigador/a Responsable	Institución	Duración en años	Monto a financiar	Notal Final
1	31190064	Towards ultra-broadband quantum-limited correlation heterodyne receivers for infrared q-band interferometry	Ernest Michael	Universidad de Chile	2	72.000.000	4,84
2	31190017	Support for the new astrophysics ph.d. program at Universidad diego portales.	Lucas Cieza	Universidad Diego portales	2	54.400.000	4,61
3	31190036	Probing a new regime of accretion onto supermassive black holes	Claudio Ricci	Universidad diego portales	2	54.746.000	4,60
4	31190042	Two engineers for astronomical mirror development in Valparaíso	Matthias Schreiber	Universidad de Valparaíso	2	57.600.000	4,60
5	31190014	"Mito & rali in the land of stars", series of animated videos for children	Catalina Arcos	Universidad de Valparaíso	1	17.245.000	4,59
6	31190021	Strengthening and disseminating the astronomical instrumentation made in Chile: organizing the 32th international symposium on space terahertz technology.	Fausto Mena	Universidad de Chile	2	38.000.000	4,58
Total						\$293.991.000
