

## Proyectos competitivos comunicados el 08-09-2017

Código	Nombre del Proyecto	Fecha de Cierre
ACT170001	New Trends in Ergodic Theory	08-10-2017 a las 14 horas (hora de Chile continental)
ACT170002	The interplay between subduction processes and natural disasters in Chile	08-10-2017 a las 14 horas (hora de Chile continental)
ACT170003	Development of legumes as a food of the future: integrating genetics and sustainable production	08-10-2017 a las 14 horas (hora de Chile continental)
ACT170016	Characterization of the interaction between kiwifruit and Psa (Pseudomonas syringae pv actinidiae) in its relationship with the environment on the field based on omics and sensor fusion strategies	08-10-2017 a las 14 horas (hora de Chile continental)
ACT170021	Deciphering the roles of glycine receptors at the brain: from the atomic level to pharmacological approaches against alcohol addiction, chronic pain and neurodegeneration	08-10-2017 a las 14 horas (hora de Chile continental)
ACT170024	Nonlinear Optics of Liquid Crystals: Synthesis, Dynamics and Applications	08-10-2017 a las 14 horas (hora de Chile continental)
ACT170026	Interactive technologies for improving teaching and learning in whole-class environments	08-10-2017 a las 14 horas (hora de Chile continental)
ACT170035	Chemical Processes and Catalysis (CPC)	08-10-2017 a las 14 horas (hora de Chile continental)
ACT170037	Integrating structure and function of ecological, mechanical and mineralogical properties of marine calcifiers: shell carbonates as source of bio-inspiration (Carbo-Nat-Lab)	08-10-2017 a las 14 horas (hora de Chile continental)
ACT170040	Astro-Particle Physics in Chile: gamma rays, software development, and STEM education	08-10-2017 a las 14 horas (hora de Chile continental)
ACT170042	Design and Manufacturing of Novel Transformation Induced Plasticity Steels for Tribo-Impact Applications	08-10-2017 a las 14 horas (hora de Chile continental)
ACT170045	Interdisciplinary Center for Molecular Simulations (ICMS)	08-10-2017 a las 14 horas (hora de Chile continental)
ACT170050	Treg-derived Extracellular Vesicles for inflammatory Disorders (TrEVID)	08-10-2017 a las 14 horas (hora de Chile continental)
ACT170055	Free Radical and Photoinduced Oxidative Processes on Proteins Involved in the Bacterial Division of Extremophiles: Comprehending the Bacterial Adaptation to Environmental Stress	08-10-2017 a las 14 horas (hora de Chile continental)
ACT170057	Chilean abalone pearl culture: science and technology to improve pearl formation and commercial production for the diversification of the industry	08-10-2017 a las 14 horas (hora de Chile continental)
ACT170063	Networks: Dynamics, Algorithms and Complexity	08-10-2017 a las 14 horas (hora de Chile continental)
ACT170065	Genomics insight into the past and present of Antarctic Biodiversity: a tool to assess the fate of a unique ecosystem in a changing world (GAB)	08-10-2017 a las 14 horas (hora de Chile continental)
ACT170066	Mechanisms of Autophagy in Obesity	08-10-2017 a las 14 horas (hora de Chile continental)
ACT170073	Groups in action	08-10-2017 a las 14 horas (hora de Chile continental)
ACT170077	An emerging role of viruses in cancer: The interplay among viral oncogenes, environmental substances and genetic factors	08-10-2017 a las 14 horas (hora de Chile continental)
ACT170089	Phenomics: a multidisciplinary approach to boost plant breeding research under adverse environmental conditions	08-10-2017 a las 14 horas (hora de Chile continental)
ACT170091	Two-dimensional materials: From theory to devices	08-10-2017 a las 14 horas (hora de Chile continental)
ACT170093	Anillo in Coastal Phytoplankton Blooms: from Ecogenomics to Biogeochemistry basis (CoastPhyBloom)	08-10-2017 a las 14 horas (hora de Chile continental)
ACT170096	Irruption of voltage-dependent signaling pathways in endothelial cell-mediated control of vascular function	08-10-2017 a las 14 horas (hora de Chile continental)
ACT170097	Early origins of allergy and asthma	08-10-2017 a las 14 horas (hora de Chile continental)
ACT170098	Research and Development in Astroinformatics: Speeding-up large-scale Astronomical Data Analysis using Novel High-Performance Computing Models and Intelligent Data Analytics Techniques	08-10-2017 a las 14 horas (hora de Chile continental)
ACT170101	Plasma Physics and Pulsed Power for Energy and Life. Effects and Applications in Living Matter and Materials	08-10-2017 a las 14 horas (hora de Chile continental)
ACT170108	High-pressure fluid science and engineering for green bioprocessing (High-Pressure Green Bioprocessing)	08-10-2017 a las 14 horas (hora de Chile continental)
ACT170115	Advanced research in forest ecosystem complexity	08-10-2017 a las 14 horas (hora de Chile continental)
ACT170121	Neural Mechanisms of Brain Self-regulation with Brain-Machine Interfaces and Application to Addiction	08-10-2017 a las 14 horas (hora de Chile continental)
ACT170132	Molecular Design to Control the Antenna Effect to Develop Novel High Luminescent Lanthanide-Based Materials	08-10-2017 a las 14 horas (hora de Chile continental)
ACT170134	Salmonid Immunology Network	08-10-2017 a las 14 horas (hora de Chile continental)
ACT170147	Technological proposal aimed to strengthen the university economic adjustment, facilitating the self-regulation of learning through the teacher-student interaction	08-10-2017 a las 14 horas (hora de Chile continental)
ACT170148	Ring Network for Renewed Brain - NewBrain	08-10-2017 a las 14 horas (hora de Chile continental)

## Proyectos competitivos comunicados el 13-09-2017

Código	Nombre del Proyecto	Fecha de Cierre
ACT170025	Seismic damage assessment of infrastructure in Central Chile	13-10-2017 a las 14 horas (hora de Chile continental)
ACT170047	Innovations in Food Logistics: Being Competitive while Keeping the Quality	13-10-2017 a las 14 horas (hora de Chile continental)
ACT170052	Center for multidisciplinary research on signal processing	13-10-2017 a las 14 horas (hora de Chile continental)
ACT170082	The Mathematics of Novel Materials	13-10-2017 a las 14 horas (hora de Chile continental)
ACT170086	Biology of Lipids in Brain Development and Plasticity	13-10-2017 a las 14 horas (hora de Chile continental)
ACT170117	Disarming pathogens: phenotypic platform for the development of novel antimicrobials	13-10-2017 a las 14 horas (hora de Chile continental)
ACT170136	Novel delivery system applied to aquaculture and agri-food sciences	13-10-2017 a las 14 horas (hora de Chile continental)
ACT170146	Enhanced functionality of Salmon fillets: Engineering, nutritional/dietetic and organoleptic study in the incorporation of Salmon-frame calcium as nano-bone-particles into commercial products	13-10-2017 a las 14 horas (hora de Chile continental)

## Proyectos competitivos comunicados el 14-09-2017

Código	Nombre del Proyecto	Fecha de Cierre
ACT170033	Formation and growth of supermassive black holes	14-10-2017 a las 14 horas (hora de Chile continental)
ACT170095	Understanding Wildfire Hazards Posed by Ignition in Continuous and Discontinuous Configurations	14-10-2017 a las 14 horas (hora de Chile continental)
ACT170131	The role of galaxy kinematics in controlling the star formation activity: a matched 3D IFS and ALMA perspective	14-10-2017 a las 14 horas (hora de Chile continental)
ACT170140	Solving the Jigsaw Puzzle of Galaxy Evolution: Anillo for Galaxy Evolution Surveys (AGES)	14-10-2017 a las 14 horas (hora de Chile continental)

## Proyectos competitivos comunicados el 15-09-2017

Código	Nombre del Proyecto	Fecha de Cierre
ACT170099	New data sources on the fossil record and evolution of vertebrates	15-10-2017 a las 14 horas (hora de Chile continental)
ACT170103	The microbiome of Chilean children during the first 24 months of life and its role in susceptibility and clinical outcome to prevalent gastrointestinal and respiratory infections	15-10-2017 a las 14 horas (hora de Chile continental)

## Proyecto competitivo comunicado el 22-09-2017

Código	Nombre del Proyecto	Fecha de Cierre
ACT170059	The Hypoxia and Extracellular Matrix Biomedical Network	15-10-2017 a las 14 horas (hora de Chile continental)

## Proyecto competitivo comunicado el 25-09-2017

Código	Nombre del Proyecto	Fecha de Cierre
ACT170128	Genomics and Applied Microbiology for Biodegradation and Bioproducts (GAMBIO)	15-10-2017 a las 14 horas (hora de Chile continental)
