

**Proyectos Competitivos comunicados el 11-07-2019**

<b>Código</b>	<b>Nombre Proyecto</b>	<b>Resultado</b>	<b>Fecha única de Cierre (Postulación de Investigadores y Patrocinio Institucional)</b>
ACT190012	Modeling of epigenetic gene regulatory networks in sweet cherry floral buds in response to differential seasonal climate conditions.	Competitivo	28-08-2019, hasta las 12 de la noche hora de Chile Continental.
ACT190027	Ecological intensification: integrating knowledge of ecosystem services to promote sustainable agriculture in Chile.	Competitivo	28-08-2019, hasta las 12 de la noche hora de Chile Continental.
ACT190029	Effects of artificial light pollution at night (alan) on the coastal marine socio-ecological system (alises).	Competitivo	28-08-2019, hasta las 12 de la noche hora de Chile Continental.
ACT190103	Novel supramolecular strategies in pesticides sensing. Aplicación to environmental matrices of water and soil in agricultural sectors.	Competitivo	28-08-2019, hasta las 12 de la noche hora de Chile Continental.
ACT190108	Intraspecific diversity in the carotenogenic microalgae <i>dunaliella salina</i> , a major primary producer in the salar de atacama, north of Chile.	Competitivo	28-08-2019, hasta las 12 de la noche hora de Chile Continental.
ACT190115	Antarctic plant microbiomes as an ecosystem service to sustainable agriculture. the next generation of bio-inoculants.	Competitivo	28-08-2019, hasta las 12 de la noche hora de Chile Continental.
ACT190162	Engineering, nutritional and organoleptic study in the incorporation of salmon-frame calcium as nano-bone particles into commercial products: enhanced functionality of salmon fillets.	Competitivo	28-08-2019, hasta las 12 de la noche hora de Chile Continental.
ACT190187	Center for complementary plant biology (cecopb): from structural and molecular mechanisms to cellular and organismal responses to the abiotic environment.	Competitivo	28-08-2019, hasta las 12 de la noche hora de Chile Continental.
