

Letter of Intent
On Concluding an Agreement on Scientific and Technological Cooperation between the
Government of the Republic of Hungary and the Government of the Republic of Chile

Representatives of the Ministry of Education of the Republic of Hungary and the National Commission of Scientific and Technological Research of the Republic of Chile

Convinced that international cooperation in science and technology will strengthen the bonds of friendship and understanding between the two countries and will advance the state of science and technology to the benefit of both countries,

Recognizing the advantages of intensive scientific and technological cooperation for the process of innovation, as well as its importance in the development of their national economies and prosperity,

Declare the following:

1. An intergovernmental bilateral Agreement on scientific and technological cooperation shall be concluded in the near future.
2. The government agencies executing this agreement will be the Ministry of Education in Hungary and the National Commission of Scientific and Technological Research of Chile.
3. The scientific and technological cooperation may be realized through the following forms:
 - a. joint scientific and technological development programs and projects,
 - b. studies and investigations in areas jointly agreed upon, exchange of scientists and experts,
 - c. exchange of scientific and technological information and documentation in the context of the cooperative activities,
 - d. scientific workshops, conferences, symposia,
 - e. researcher training, any other forms of scientific and technological cooperation as may be agreed by the Parties

Done at Santiago, in duplicate, this 22 day of April, 2003.

for the Ministry of Education
of the Republic of Hungary

for the National Commission of
Scientific and Technological Research of Chile
